Introduction & About Our Conference

Thank you for considering sponsorship of the EURO 2022 Espoo Conference. EURO meetings are intended to be forums for communication and cooperation among European Operational Researcher Academics and Practitioners. Being broadly oriented, they are intended to be international meetings of Operational Researchers who are active in all the diverse special areas of Operational Research and to the free exchange of knowledge, experience, new ideas and promising results relating to the research and practice of OR.

Why Sponsor?

There are several benefits in sponsoring our event, including:

For this 32nd edition, the Organising Committee (OC) is devoted to giving sponsors a key and central role in the event. Exhibition space is centrally located also, close to the registration and main plenary and catering areas. The OC is willing to give your company the space and consideration it deserves, as well as a maximum visibility. Similarly, the Programme Committee is also continuing with the recent "Making an Impact" initiative, started in Glasgow 2015 where practitioners and academics get together with key figures from industry to share the latest developments in applied Operational Research.

Venue

Aalto University offers a modern, compact and easy-to-navigate campus with excellent facilities for conferences. The campus is located in Espoo and can be reached in 11 minutes by metro from Helsinki city center. Espoo is the largest high-tech and innovation hub in Northern Europe, it is ranked to be the most sustainable city in Europe and the most intelligent community in the world.
